TO: Enforcement Action Report Recipients

FROM: Ronald R. Ross, Ph.D.

Executive Director

DATE: October 1, 2012

The State Board of Psychology of Ohio announces that the following actions were approved by Board vote during a public meeting on September 28, 2012:

Consent Agreement

Licensee: Darlene Barnes, Ph.D.

Fremont

License: 3915

Action: Reprimand; successful completion of the requirements set forth in the sentencing

order for Case No. 12-CR-58, Sandusky County, relative to treatment in lieu of conviction for felony charges, and completing up to three (3) year term of Community

Control; agreed that a failure to successfully complete her term of community control and/or any other requirement set forth by the Court will constitute a violation of the agreement; individual face-to-face tutorial under the direction of a Board approved,

doctorate level psychologist, to undertake a critical analysis of Dr. Barnes'

professional conduct and decision making processes in this matter to remediate

deficiencies in professional judgment and decision making.

Reason: Negligence

Effective: September 28, 2012

Adjudication Order

Licensee: Judith Lalli, Ph.D.

Mayfield Heights

License: 4912

Action: Permanent License Revocation

Findings: Denied request for restoration of suspended license; respondent underwent

multi-disciplinary evaluation and was determined to have impaired judgment secondary to a chronic mental illness and a lack of insight into her condition and its relationship to her violations and her ability to practice psychology; respondent engaged in misrepresentation of affiliations while her license was under indefinite suspension, representing herself in writing in April 2012 as "licensed to practice psychology in Ohio," and therefore violated ORC 4732.17

(A)(7) and OAC 4732-17-01 (B)(3).

Effective: September 28, 2012
