Successful candidates must answer four (4) questions correctly—one in each of the areas specified above. Standards for passing each question are established prior to the examination. If a question is not answered correctly, an alternate question is given in the same content area. Only one alternate question is allowed during the course of an examination. Candidates may be asked to recite circumstances, behaviors, standards, or conditions, or lists that are outlined in the laws and rules as being specifically required in professional practice or, conversely, specifically prohibited. Candidates should know concepts (categories) by heading (not necessarily by numbers) and must be able to differentiate the rules/conditions/examples under each heading. Successful candidates are thoroughly familiar with all sections of these law and rules to the point where they can fluently recite lists, conditions, and circumstances. Therefore, successful candidates memorize substantial amounts of information.
